Data Mining Final Presentation

- Date July 8th
- Time slot: 30 + 5/10 min each group
- give every group member a fair share, exception: group member which have presented significantly less so far can do a little bit more
Hints

- Structure your talk
- Try to make it a story. e.g.:
  - Intro – Problem Statement
  - Methods and Result
  - Conclusion
- Do not get lost in details
Hints II

- What did work, what did not?
- Lessons learned by you during the project
- Used machines and tools for (if applicable):
  - Databases
  - Data Mining / Machine Learning
  - Visualization
- There is the opportunity to record your presentation on video
